Troup Announces SPLOST-Funded Park Improvements

Troup County, Ga. February 13, 2020 – Troup County recently launched a SPLOST V project to include park enhancements at several Troup County Parks and Recreation owned and operated facilities.

The county purchased a variety of large shade trees as an effort to beautify and preserve park spaces across the county while creating additional shaded areas for the utilization of the facilities. The SPLOST-funded project was proposed as a way to expand visual enhancements to already existing recreation facilities.

The project will include planting trees at the William J. Griggs Recreation Center, George Harris Baseball Complex and Shuford Softball Complex, and it is set to be completed this week. The county plans to continue park improvement beautification efforts with the planting of additional large shade trees next year as well.

The SPLOST V (Special Purpose Local Option Sales Tax) was passed by Troup County voters in November 2017. The County encourages residents to view the list of scheduled projects constructed with special sales tax proceeds at www.troupcountyga.org.
